PLATFORM SUMMIT

ABOUT NORDIC APIS

Nordic APIS is an international community of API practitioners and enthusiasts

Our mission is to help companies make smarter tech decisions using APIs. Nordic APIS was formed to help organizations become more innovative, lean, and efficient. Since its inception in 2013, Nordic APIS has grown into one of only a few all-API-related event series, and it's the Nordics' largest international community for API practitioners and enthusiasts. Through the global reach of our blog and digest, we're connected to tens of thousands of API practitioners from around the world, and through our API events, we're helping companies make smarter tech decisions using APIs and inspiring better API solutions.
