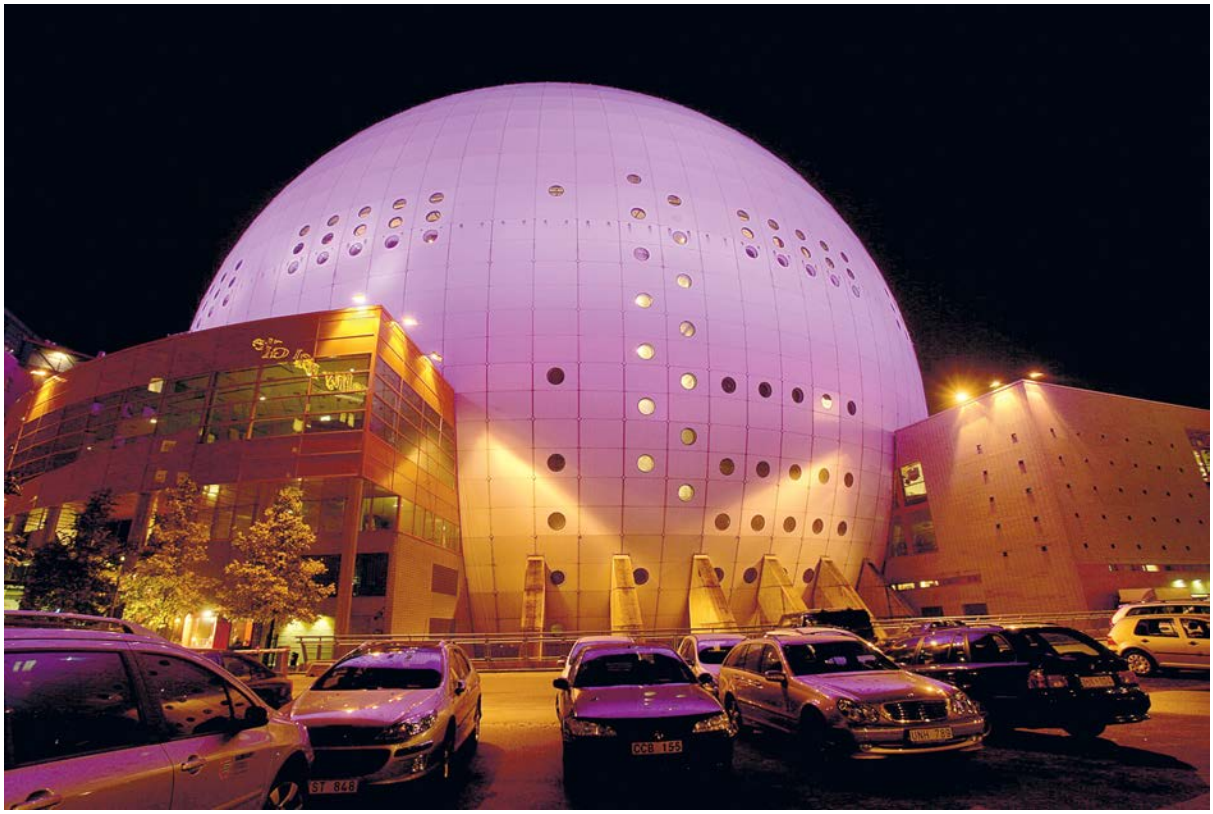
VENUE

The home of the Nordic APIs Platform Summit this year is Globen, the largest hemispherical building in the world. It has a seating capacity of 16,000 spectators for shows and concerts (fun fact: this is where the European Song Contest was held earlier this year). Even though the Nordic APIs 2016 Platform Summit won't host an event for 16,000 spectators, we're very happy that this is where we'll host our biggest event yet. Globen has a very central location – it doesn't take more than 11 minutes to get there by metro from Stockholm Central.

Address

Globen is located in Globe City, Johanneshov district, 121 77 Stockholm

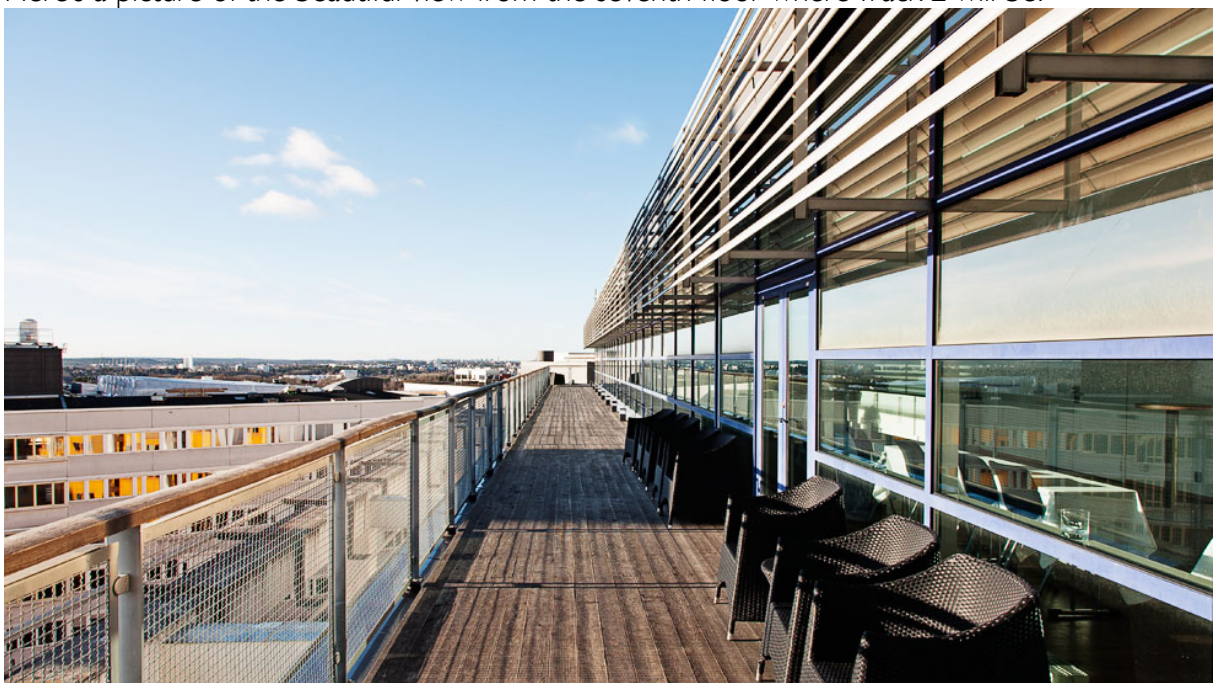


Below is the entrance where registration will take place. It's also where coffee and fika will be served between sessions. You can also get an ice cream from the ice cream machine.

Below is the main hall where our keynote talks will be held, although the room will be arranged differently during the event.

The room below is where the sessions for Track 2 will be held.

Here's a picture of the beautiful view from the seventh floor where Track 2 will be.



And the Workshops on the 24th will be held in rooms like the one below.

HOTEL

Nordic APIs are very glad to be able to offer our visitors a special price to stay at the **Quality Hotel Globe** – you'll never have to leave the event once! We have reserved a limited amount of rooms for our attendees so be sure to book your hotel stay as soon as possible.

Booking code: 415592
Phone number: +46 8 686 63 00
Email: info.globe@choice.se

Booking

To be able to confirm a room you need to state the following information:

- Booking code
- First and last name of those who will be staying in the room
- Email address
- Phone number
- A valid credit card to guarantee the reservation (card number, period of validity)
- Payment

Payment Method

Unfortunately, they cannot send invoices after check-out for individual bookings worth less than 5000 SEK. Below are the payment options:

1. **Payment at the counter**
    a. They can accept payment by credit / debit card (VISA, MasterCard, American Express, Maestro and Diners accepted) or cash.
2. **Prepayment by credit card**
    a. If the municipality / association / company has a debit card with which guests can pay for their rooms, you need to fill in a document and attach a copy of the pay front of the card and copy of the card owner's ID papers. This gives them permission to debit the card.
3. **Advance Invoice / Pro Forma Invoice**
    a. They can send an advance invoice, a so-called pro-forma invoice to the municipality / association / company. This bill needs to be paid before the you check in. If the invoice is not paid upon check in, they need to take payment in place of you (see when the above option "payment at the counter. For them to be able to send an advance invoice, they need to ask for the correct billing address including any markings on the invoice (reference, project number, cost center).

Guaranteed check-in from 15.00, check-out at 12.00.

Visit their website here.

DIRECTIONS

Arlanda Airport – Stockholm Central Station

BUS – Flygbussarna
Price: 99 SEK one way
Time: 35-40 minutes.

Get of at City Terminalen. You can buy tickets at Arlanda, but you can also buy tickets in advance on their website here. Remember to have a credit card available! Cash is rarely used in Sweden.

TRAIN – Arlanda Airport Express
Youth (18-25): 150 SEK one-way, 300 SEK two-way.
Adult (26+): 280 SEK one-way, 540 SEK two-way.
Time: 20 minutes

You can buy tickets in advance via their website here. You cannot pay in cash!

TAXI
If you travel with **Taxi 08** it only costs 390 SEK to get to Stockholm City, which is the cheapest taxi, though no taxi driver should charge you more than 500 SEK. Going directly to Globen should cost about 650 SEK. At this website you'll find phone numbers to several taxi companies in Stockholm. You can of course always just walk outside and grab the first of the following taxis you see:

- Taxi 020 (website)
- Taxi Stockholm (website)
- Taxi Kurir (website)

WARNING: Ask for a fixed price up front to avoid fraud.
To be sure you should stick to the Taxis listed above.

Stockholm Central Station – Globen

Go down to the metro (marked with a "T" for the Swedish equivalent to metro: Tunnelbana) and take the Green line towards Hagsätra or Högdalen. Get off at the stop called "Globen". The trip should take about 11 minutes.

METRO
You can buy a metro card in any metro station, and we recommend that you get a travelcard for a period instead of filling it with single trips. Observe that you need to go to a ticket booth to buy a metro card.

24 hours: 115 SEK
72 hours: 230 SEK
7 days: 300 SEK

You can also download the "SL" app. If you register your card you can buy tickets via that app, and show the ticket to the buss driver, or scan it right by the latches down in the metro. However, it's easier to just use a metro card.

Visit their website here.

TIP

To easily get around in Stockholm we strongly recommend that you download the free app "**Res i Sthlm**" (Travel in Stockholm). The app is in Swedish but it's easily navigable and will show you exactly how you should travel to reach your destination in the fastest possible way.

Just type in where you want to travel from (Från) and where you'd like to go (Till). Then you press "Sök" (Search) and the app will show you how you should travel and different departure times. You can also choose which time you'd like to go (När), either by the earliest time you'd like to leave (Tidigast åka) or when you want to arrive at the latest (Senast framme).
